

Chapter 2019-56, Laws of Florida, requires each county and municipal budget officer to electronically submit to the Office of Economic and Demographic Research (EDR), in a format and on forms prescribed by EDR, specified information regarding the final budget and the economic status of the local government, beginning October 15, 2019, and each October 15 thereafter. The law requires each county and municipality to submit:

1. Government spending per resident, including the rate for the five preceding fiscal years;
2. Government debt per resident, including the rate for the five preceding fiscal years;
3. Median income within the county or municipality;
4. Average county or municipal employee salary;
5. Percent of the entity's budget spent on salaries and benefits for the entity's employees; and
6. Number of special taxing districts that are located wholly or partially within the county or municipality.

EDR has prepared the Municipal Reporting Form and several additional documents to assist municipal budget officers in completing this reporting requirement, including Instructions for Completing Reporting Form, Answers to Frequently Asked Questions, and Supplemental Information. This information is posted on the EDR's Local Government Financial Reporting webpage via the following link.
