## FGFOA COVID-19 Survey Results

The FGFOA Board of Directors, conjunction with the Florida League of Cities Communications Department, quickly devised a COVID-19 Workforce Survey which asked pertinent questions relating to how cities are being affected by the novel Corona Virus.

This survey gathered information during the early phase of the COVID-19 pandemic to assist local elected officials as they consider what actions are available and appropriate for their municipal employees. This survey is meant solely as an initial examination of what actions have been taken to date. FGFOA recognizes that situations will change and evolve as more information becomes available.

Below are links showing the results of this survey. They provide a snap-shot view of results based on the current climate. We understand each day brings new challenges and each municipality is handling this situation differently.

We hope that as you review this information it provides insight to how our FGFOA membership is being affected throughout the state.

We are all in this together and we will be here to support our membership through this crisis.
