Local Government Economic Development Incentives Survey for FY 2015-2016

<http://edr.state.fl.us/Content/local-government/economic-development-incentives/index.cfm>

During the 2010 Regular Session, the Florida Legislature enacted Committee Substitute for Senate Bill 1752, relating to economic development, which was later codified as Chapter 2010-147, Laws of Florida. The law amended Sections 125.045 and 166.021, Florida Statutes, to impose new economic development reporting requirements on county and municipal governments.

By January 15th of each year, each county government shall report to EDR the economic development incentives in excess of \$25,000 given to businesses during the previous local fiscal year. Additionally, each municipal government having annual revenues or expenditures greater than \$250,000 shall report the economic development incentives in excess of \$25,000 given to businesses during the previous local fiscal year. Please note that municipal governments having annual revenues or expenditures less than \$250,000 are exempt from this reporting requirement. Pursuant to law, county and municipal governments must report their economic development incentives in the format specified by EDR.

Local government officials may fulfill this reporting requirement by accessing the survey at the external website, which is provided. Alternatively, if the local official wishes to report by hard copy, a PDF file is also provided. For electronic filers, EDR recommends that the survey respondent print a copy of the survey and gather the relevant information prior to beginning the online survey.

The statutory deadline for completing this survey is January 15, 2017; however, the response deadline is being extended to Tuesday, January 31, 2017, to give additional time to local officials.

EDR will compile the survey responses and publish a report in 2017.
