

2022 Uniform Accounting System Manual

The majority of the changes made to the 2021-2022 edition of the UAS Manual were from communications received by you, the Local Governments this past fiscal year reporting period. We have added account codes for Bank Fees, Bank Fee Refunds, and Repayments from Small Business Loans. Additionally, we have added a new account code for counties to track the funds received from the Pandemic Recovery Plan.

The 2021-2022 UAS Manual is for the filing of the 2022 Annual Financial Report (AFR). Below is the 2020-2021 UAS Manual for your convenience as this will be used to file your 2021 AFR. Both manuals are available on our [website](#) under the Local Governments drop-down option.
