

Cherry Bekaert's Benchmarking Survey 2021

In the tenth year of Cherry Bekaert's annual Government Benchmarking Survey, we have continued to refine the categories and questions to reflect the current and changing regulatory environment, and incorporated new questions as a result of feedback from last year and COVID-19. We look forward to sharing the statistics of your responses and presenting comparisons between and among the participating states and entity types.

The survey will focus on counties, municipalities, schools, authorities, and commissions in Maryland, District of Columbia, Virginia, North Carolina, South Carolina, Georgia, Florida and Texas, and will touch on a range of issues, including:

- Workforce & Benefits
- Use of Technology
- Budget
- COVID-19
- Financial Reporting
- Risk Assessment and the Audit Process
- Data & Dollars

The survey should take approximately 15 minutes to complete. [Click here](#) to continue to the survey. On the following page, you can request a detailed report of the anonymous, aggregated results of this survey. The results of the information gathered will allow government entities to compare their own performance and planning with those of similarly sized and located entities.

On the survey page, you will have the option to enter for a prize drawing. Five (5) survey respondents will be randomly selected to win a voucher to receive a \$25 gift card from Amazon!

Thank you for taking the time to participate. We look forward to sharing the results.
