

Comments From Our President on Hurricane Ian

Jonathan McKinney
FGFOA President
Director of Finance
City of Port Orange

Our hearts go out to all of our members affected by the devastating damage caused by Hurricane Ian. This is such an unimaginable tragedy that our state is facing. We are concerned for your wellbeing of all our members across the state. FGFOA will be putting out information in the coming weeks about recovery efforts as well as information from both State and Federal agencies.

We know our members are resilient; We have a long recovery ahead but know that you are not alone. We are assessing the impact of this storm and it's affects on the upcoming School of Governmental Finance which was set to begin October 15th in Fort Myers.

Please watch for future **e-bulletins** with updates. Or, you can check the dedicated **School of Governmental Finance** page of our website.

I understand communication may be limited for many of our members at this time and we will provide additional information as it becomes available.
