**Presenter:**

**Angelo DiPierro, Fixed Assets Manager**  
Office of Financial Management and Budget, Palm Beach County

**Overview:**

An operations perspective pertaining to the topic of Governmental Capital Assets. This webinar covers the practical application of financial and inventory management & control oriented techniques to safeguard capital assets as well as attractive items – i.e., non-capital or miscellaneous, from cradle-to-grave. The objective of this session is to shine a light on the meaning and significance of the Fixed Assets function in government or rather the Capital Asset Investment & Recovery Operations.

**Learning Objectives:**

- Learning Objective #1 Establish a Viable Inventory Process for the Organization then Manage it Well (be flexible and adaptable making use of constructive criticism as a means to improve and enhance standard operating practices).
- Learning Objective #2 Act in an Entrepreneurial Role by Combining the Available Resources at your Disposal into a Productive Endeavor.
- Learning Objective #3 Maximize Opportunities when Possible, Optimize when Practical – remember that people are not machines or a cog in the process but rather are to be served efficiently and effectively by the machines and processes for operations to succeed.

- Learning Objective #4 Migrating to a New Platform – Radio Frequency Identification Technology (plan, test & develop, establish a production readiness environment, then deploy for usage interfacing with the centralized financial management system in a coordinated and predictable manner).

*CPE Reporting Verification: Your participation will be recorded through the webinar software. You must be present and signed in the entire 100 minutes to receive credit. The FGFOA will receive a verification report after the webinar and will prepare the CPE certificates. You should receive your certificate via email in approximately 30 days.*
