

New Requirement for using ASAP Federal Payment System: Register by September 15

Under the federal government's zero trust security protocols, many programs are now requiring multi-factor authentication. NASACT has recently learned that the Automated Standard Application for Payments, or ASAP, used by states to draw down federal funds will use ID.me for this authentication.

Users must register with ID.me by September 15 in order to access the system. The authentication is necessary for each individual who uses the ASAP system. [Click to learn more.](#)
